Please describe the "symptoms" your cleaner is having. Be as specific as possible.

Shipping Your Cleaner

To ship your cleaner to us you must first call to obtain an Authorization to Ship Number (ASN). To do this call 530-534-6802 and ask for the Pool Cleaner Repair department. After receiving your ASN fill in this form and detach the shipping label to the right, *making sure your ASN is filled in on this shipping label*, and place it on the box in which you are sending your cleaner.

To package your cleaner remove the hose and store it by laying it in a straight line to help prevent future kinking. Keep it away from pets and outside animals. Place the sweep, vacuum, or cleaner in the box. Be sure to include the wall fitting and in-line backup valve if applicable. Place appropriate padding in the box to prevent damage and tape up the box. Next, ship it to us.

After we receive it, we will check it out to see what needs to be done and to make it serviceable for you again. You will receive a call from us with the repair and pricing information or a replacement price if the condition of the unit warrants. If you decide to repair it or replace it, we will at that time require your credit card information in order to complete the repairs. If you decide to have it neither fixed nor replaced we will ship it back to you free of charge.

Thank you for the opportunity to serve you.
