Shallow End Profile (check one)

Track to Floor

90° Angle

Track to Top of Angle

45° Angle

Track to Top of Radius

Radius

2 Liner Mounting (check one)

Beaded

Overlap

3 Perimeter and Wrap Dimension

Complete Pool Perimeter _____ (As if pool steps did not exist.)

Wrap Dimension _____

Note: Wrap Dimension is measured across the deep end along the bottom of the pool at the deepest point. See the dotted line in the Deep End View.

4 Pool Size

Width _____ X Length _____

Measurement Checks

A, B, C & D should equal L

E, F & G should equal W

5 Liner Material

Mill _____ Pattern _____

Floor 20 30 _____

Wall 20 30 _____

6 Step Detail (check all that apply)

Liner Covers Steps? Yes No

Fiberglass Steps?

Safety Ledge?

Bench Loveseats

Note: This drawing may not represent the exact shape of your pool. By filling in the requested dimensions the actual shape will become known once we plot the pool in our AB Verifier program.

Name _____

A B Distance _____

Step 1

Establish an "A-B" line that runs parallel to the centerline of the pool. The line should be at least 4 ft. away from the edge of the water and run at least two thirds of the length of the pool. Be sure that if the "A-B" line were extended the length of the pool it would never cross over the pool. "A" must be to the Left of "B". Measure the distance of your "A-B" line and log it on page two of the Kidney and Freeform Pool diagrams. Your "A-B" line needs to be on the bottom of your page.

Step 2

Using chalk, mark the deck at the waters edge. Marks should be spaced at about 2' intervals where the shape of the pool is changing directions on moderate curves and 1' intervals on tight curves. In areas where there are no curves place marks at intersecting corners.

Step 3

Beginning close to the central point of your "A-B" line, number all the chalk marks on your pool deck in a clockwise pattern. Continue to number all the points around the pool.

Step 4

Have an assistant hold the end of the tape measure on point "A". Be sure to work clockwise. Measure to each numbered point and place on page two of this form. Be sure to measure in feet and inches.

Step 5

Have an assistant hold the end of the tape measure on point "B". Be sure to work clockwise. Measure to each numbered point and place on page two of this form. Be sure to measure in feet and inches.
